

GREEN LIVING

🌿 Are you interested in discovering more about a Greener way to live?

🌿 Would you like to participate in learning more about Green issues?

A small group within Avenue St Andrew's URC embarked on an eight-module Green Living course last year. We listened and learned, shared and discussed a different module each fortnight during our one-hour Zoom sessions. By supporting one another, each of us was inspired to be able to make changes in our lifestyles which not only lightened our carbon footprints but also saved us money!

We are inviting you to a re-run of this course, so that you too can engage more with this vital subject together with others.

Please speak with any of the original course members – Bernie and Gwen Collins, Heather Dibb, Christiane Grashof-Charlton, Sarah Hall, Mark Hancock or Pam Humphreys - if you'd like to find out more.

To book your place on the next Green Living course contact Rev Sarah Hall on sarah.hall.swhg@gmail.com by 28 January 2021.
