

*Climate crisis needs
awareness and action!*

Green Living

Seven interactive leaflets
to help you and your friends, family and colleagues
to understand more, and to take what action you can

Designed for use interactively, to explore linked websites

*Originally produced in 2021, occasionally checked and revised,
to make sure weblinks are still available online,
and topics are relevant to changing circumstances in society*

Also available from berniecollins868@gmail.com:

A Green Living Course Outline to help leaders of small groups

6	<u>Water</u>	2 September 2025
7	<u>Community</u>	1 September 2025

Basis and aim

These *Green Living leaflets* are an attempt to convey
key points from the *Dorset Green Living Guide*
with updates of information and issues,
in brief, clear style and layout,
to lead from your present awareness,
through deeper understanding and broader vision,
to important action you may take, locally and more widely.

*Information about Southampton and Hampshire replaces Dorset's
In other areas you may find similarly relevant weblinks
on your internet browser*
